# DOMO LED

## NOTICED BY EVERYONE!

MADE IN  
**RUSSIA**

Introducing the new DOMO LED range of lighting fixtures for building facades and public areas.

DOMO LED is a universal solution, suitable for functional and decorative lighting and fits into any building. They are a combination of efficiency, economic feasibility and simple design.

OUTDOOR

## ADVANTAGES

### HIGH-TECH DESIGN:

#### A diffuser made of impact resistant UV stabilized polycarbonate

High ingress protection: IK10

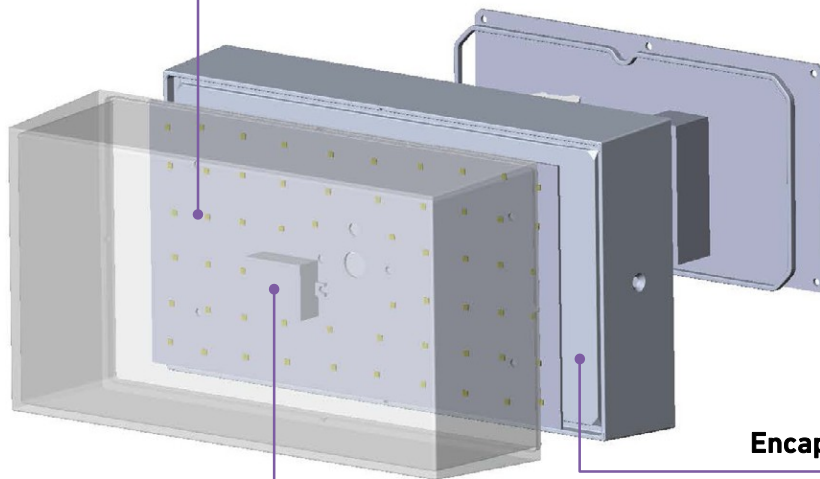

#### Minimalistic design

Suitable for majority of buildings and facades

#### Steady illumination

Uniform light, no shades

#### Modification with a motion sensor

Adjustment of sensitivity and operating thresholds

#### Encapsulation with a compound

High reliability, IP65 is preserved in time

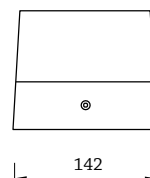

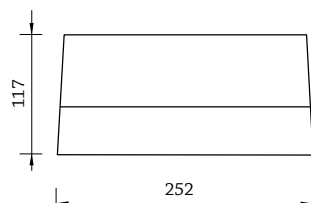

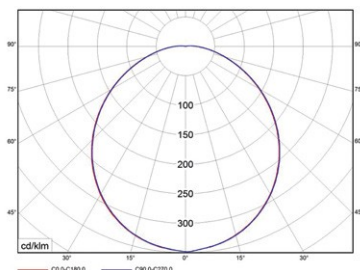

#### Creation of an 'Up/Down' effect

Using the 'DOMO LED Decorative Curtain' accessory

### LIGHT DISTRIBUTION

Color temperature, K	4000K, 3000K
Color Rendering Index, Ra	> 80
Flickering	< 5%
Power factor	> 0.98
Ingress Protection / Impact Resistance	IP65, IK10
Operating temperature range	-30 °C... +40 °C
Overall dimensions (L×W×H), mm	250×140×117
